

Snow Will Continue Through Sunday Night

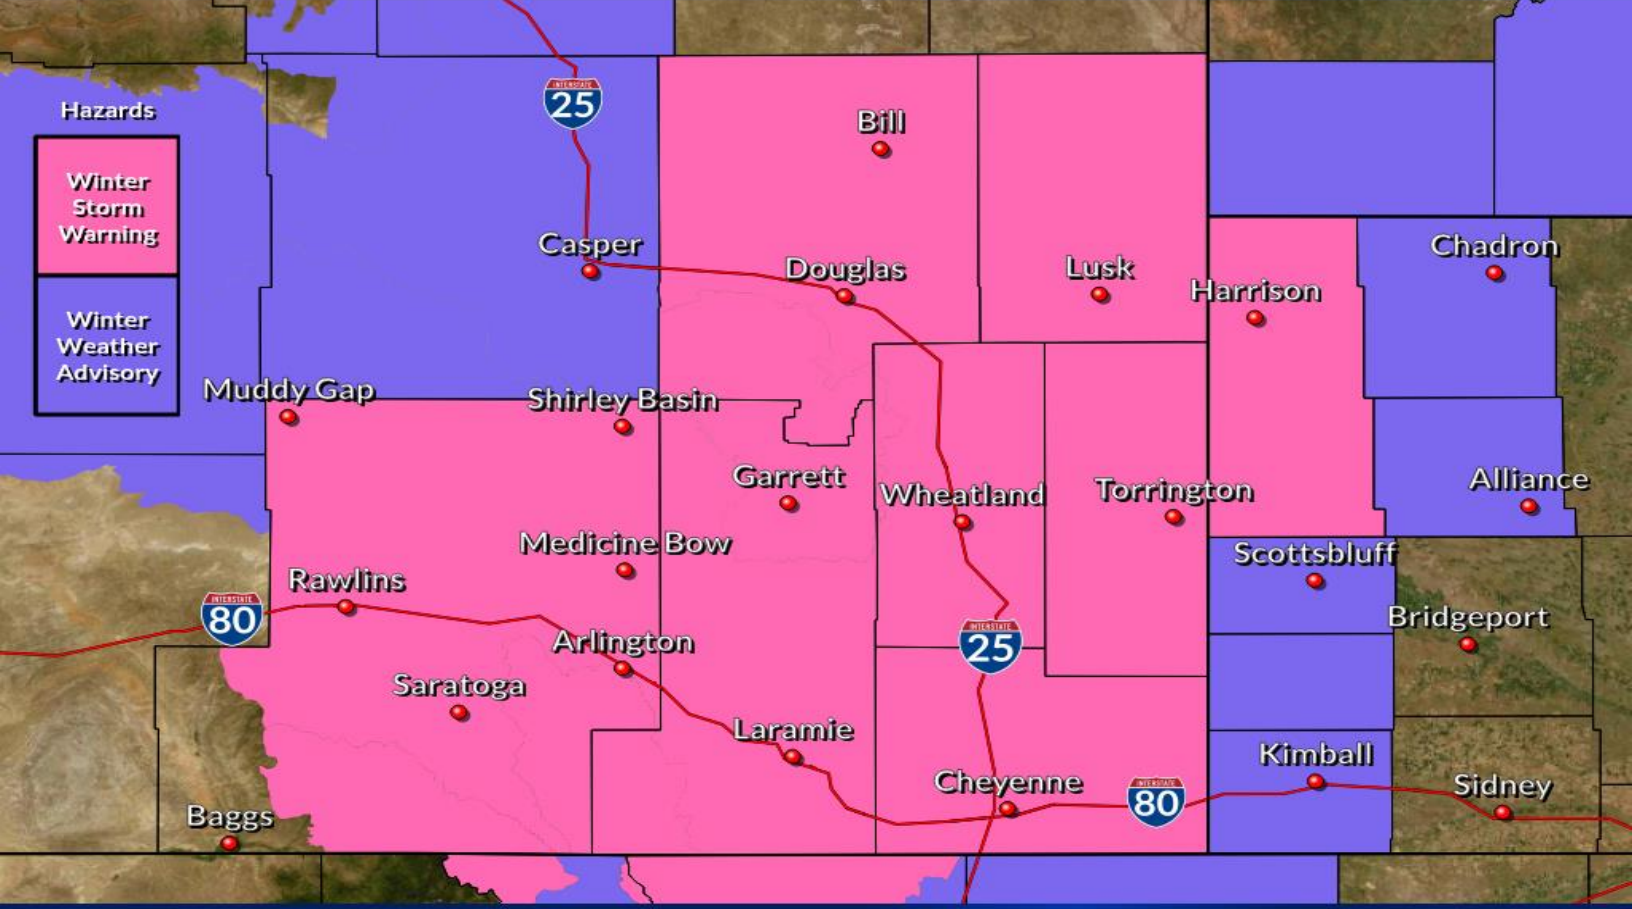

# Winter Storm Warning/Advisory

6PM Saturday - 6AM Monday

Weather Forecast Office  
Cheyenne, WY

Issued Oct 26, 2019 2:46 PM MDT

Message of the Day:

- Winter Storm Warning and Winter Weather Advisory until 6AM Monday.
- Snow will continue north of Interstate 80 today with snow tapering off across Douglas, Lusk, Chadron this evening.
- Snow will become more steady and widespread along Interstate 80, between Elk Mountain and the Nebraska border later this morning. Snow will fall heavy at times tonight.

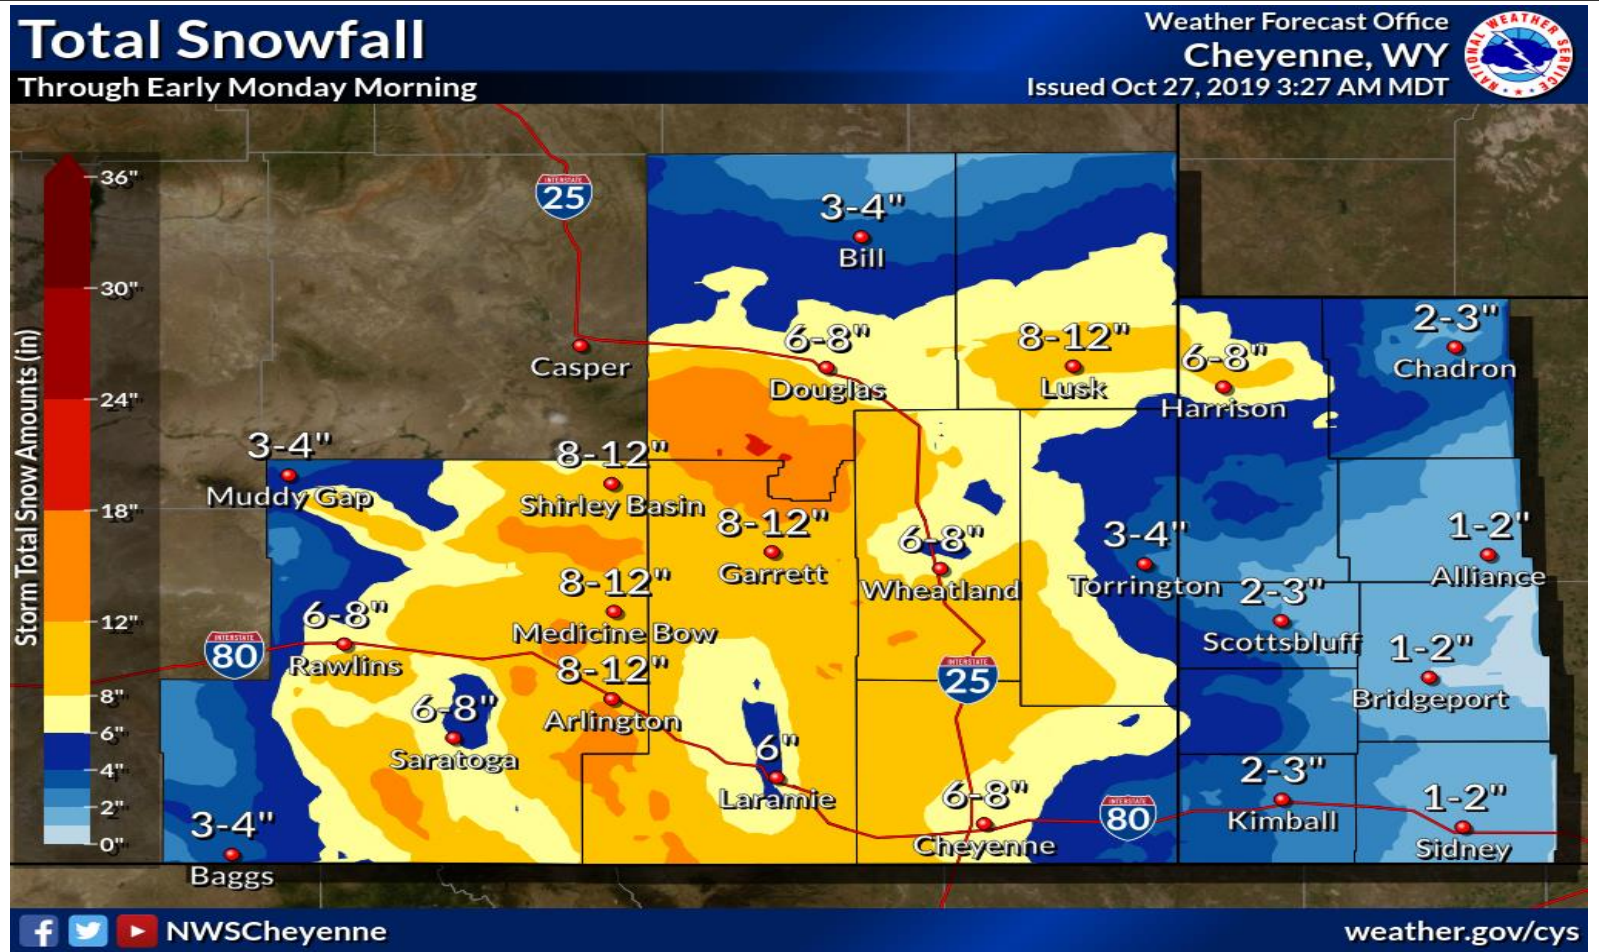

Important Forecast Changes

- Steady snowfall has struggled to develop along the Interstate 80 corridor this morning. Updated snowfall forecast to reflect this trend.

# Updated Snow Amounts & Confidence

## Key Points

**Hazards:** Snow, with some drifting snow, are likely through early Monday morning. Localized areas of blowing snow are possible in the higher terrain.

**Timing & Duration:** Snow will continue north of Interstate 80 through Sunday, with snow becoming more steady and widespread further south later Sunday morning. Snow will taper off Monday morning.

**Impacts:** Snow-packed and icy roads will cause difficult travel and delays. Reduced visibilities in moderate snow will result in considerable travel difficulties.

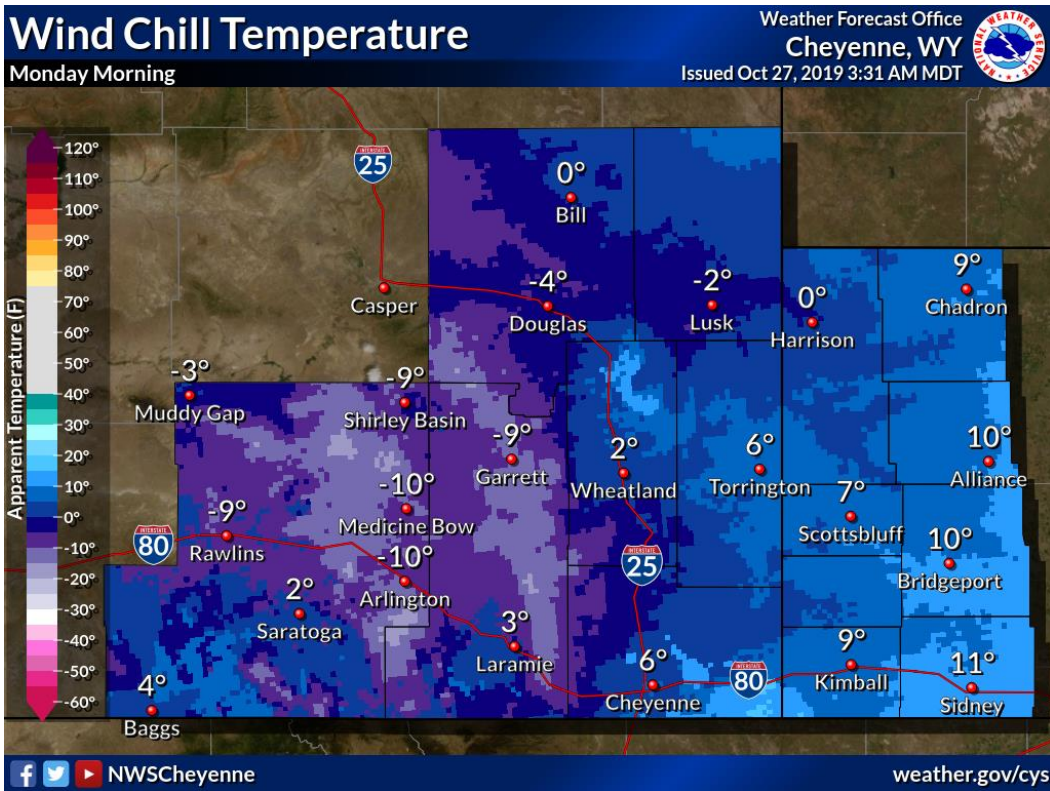

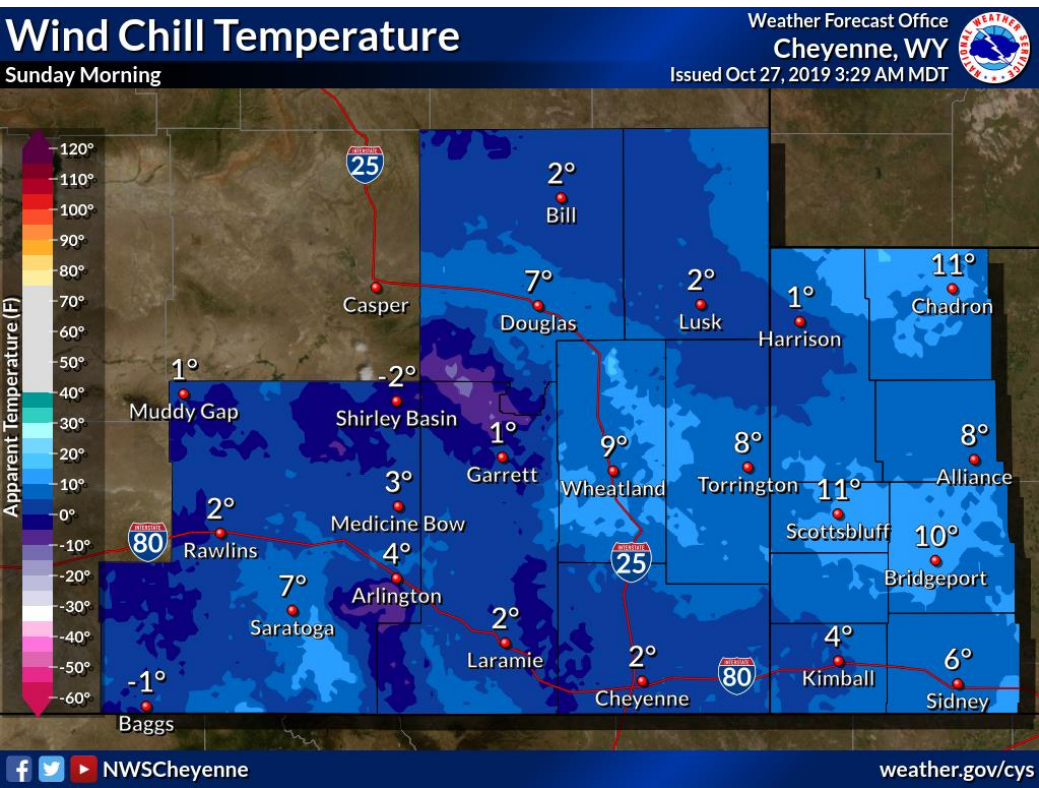

**Certainty & Considerations:** Confidence in snowfall is **Moderate**  
Confidence in Impacts is **High**

# Very Cold Wind Chill Temperatures

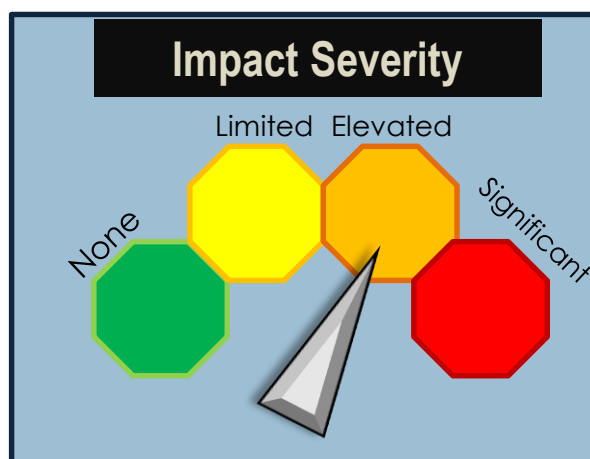

By early Monday morning, wind chill temperatures will range between 10 below zero to 10 above zero. **Even colder temperatures expected Tuesday and Wednesday!**

## Message of the Day:

- Snow will continue all day Sunday north of Interstate 80, with steady and widespread snow developing along Interstate 80 and near the Colorado border late Sunday morning into the afternoon hours.
- Most locations across southeast Wyoming will see snow accumulations of 5-10 inches, 12+ inches in the mountains including the northern and southern Laramie Range. 2-5 inches elsewhere into western Nebraska.
- Gusty winds will result in drifting snow and some localized blowing snow. Low visibilities expected for much of southeastern Wyoming and western Nebraska.
- Bitter cold temperatures and wind chill temperatures possible Sunday through early Wednesday of next week.

### Preparedness:

- A **Winter Storm Warning** is issued when a combination of heavy snow, blowing snow, and possibly ice mixed with snow is expected to impact the area. *Time to act!*
- A **Winter Weather Advisory** is issued when conditions are favorable for periods of snow, sleet, or freezing rain with likely travel impacts by slick roads and limited visibility. *Time to act!*
